TEXTRON AVIATION

Textron Aviation's supplier diversity and small business program is about reflecting the market and community where our company plans to grow and thrive. To that end Textron Aviation is committed to a diverse supply base that reflects the demographics and values of our company, customers and the communities in which we operate.

For more than 90 years, the Textron Aviation brands have represented unrivalled innovation, performance and leadership in the industry, offering an unmatched value proposition rooted in the total ownership experience. Leveraging unparalleled speed-to-market, Textron Aviation provides the most versatile and comprehensive business and general aviation product portfolio in the world through five principal lines of business: business jets, general aviation and special mission turboprop aircraft, high-performance piston aircraft, military trainer and defense aircraft and a complete global customer service organization. Our core objective is to create customers for life by delivering aircraft that excel in both quality and safety, while offering an overall value proposition that is unmatched in our industry.

The relationships we have with our key suppliers and partners are critical to our future, and we count on them to deliver on our commitments to our customers. We encourage and promote the development of new businesses, particularly those that complement our goal of building and maintaining a diverse supplier base. We strive to provide an inclusive environment to do business with small, minority-owned, women-owned, veteran-owned (including service disabled veteran-owned) and HUB Zone certified businesses.

Textron Aviation also seeks to provide an inclusive environment for historically black colleges, universities, and minority institutions to participate in the procurement of technical, engineering and research services.

Potential suppliers can register at [Become a Supplier](#) on our internet and learn more about doing business with our company. Specific questions regarding supplier diversity should be directed to the [Supplier Diversity Program Administrator](#), within the Supply Chain Management Organization.
